

Nuno Lourenço

Ph.D. Researcher

bio

Name: Nuno António
Marques Lourenço

Birth: November 14, 1988

Citizenship: Portuguese

contact

Rua do Pisão N.º 2, Foz de
Arouce
3200-104 Lousã
Coimbra
Portugal

+351 914 544 370

naml@dei.uc.pt
me@nunolourenco.me
<http://nunolourenco.me>

languages

Portuguese
English fluent

programming

Python, Java
C, C++

research interests

Hyper-Heuristics
Evolutionary Computation
Complex Systems
Artificial Intelligence
Problem Optimization
Machine Learning
Biology
Compilers

Education

2011–Present **Ph.D.** candidate on Evolutionary Computation University of Coimbra, Portugal
Dissertation subject *Evolution of Evolutionary Algorithms* under the guidance of
the professors Ernesto Costa and Francisco B. Pereira

2009–2011 **Masters** in Informatics Engineering University of Coimbra, Portugal
Swarm Intelligence Algorithms for Cluster Geometry Optimization
This dissertation proposed an Ant Colony Optimization algorithm to tackle the
problem of Cluster Geometry Optimization

Advisors: Dr. Francisco B. Pereira and Dr. Luís Paquete

Thesis Grade: 19/20

Graduated with 17/20

2006–2009 **Bachelor** in Informatics Engineering University of Coimbra, Portugal
Graduated with 16/20

Teaching Experience

2011–2012 **University of Coimbra** Coimbra, Portugal
Invited Assistant Professor
Courses: *Operating Systems* and *Compilers*

2010–2011 **University of Coimbra** Coimbra, Portugal
Graduated Teaching Assistant
Courses: *Introduction to Programming and Problem Solving* and *Introduction to Procedural Programming*

Research Experience

2011–Present **Ph.D. Researcher** Centre for Informatics and Systems of the University of Coimbra
Researcher at Evolutionary Complex Systems Group

2009–2010 **Researcher** Centre for Informatics and Systems of the University of Coimbra
Applying swarm intelligence algorithms to the cluster geometry optimization problem

Other Experience

2008	Interactivius	
	<i>Organized a technological event that introduced new ways of human computer interaction to the general population.</i>	
2008	Developer	WIT Software
	<i>Worked on the Research and Development team</i>	
2005	Trainee	CARD Services-The Netherlands
	<i>Performed repairs in notebooks, printers, and projectors. This was a short time internship, provided by the Leonardo Da Vinci Program</i>	

Awards

2011–Present	Ph.D. Scholarship	Fundação para a Ciência e Tecnologia (FCT), Portugal
	Research grant SFRH/BD/79649/2011	
2010	Codebits 2010	
	Third place in the programming contest	
2009	Research Scholarship	Fundação para a Ciência e Tecnologia (FCT), Portugal
	Research grant for the project PTDC/QUI/69422/2006	
2009	3% Best Faculty Students	University of Coimbra
2008	3% Best Faculty Students	University of Coimbra

Communication skills

2013	Poster	4ª Escola Luso-Brasileira de Computação Evolutiva (ELBCE), Coimbra
	As part of the a summer school, I created a poster entitled <i>Learning Evolutionary Algorithms using Hyper-Heuristics</i>	
2013	Oral Presentation	Centre for Informatics and Systems of the University of Coimbra
	Presented the latest results of the ongoing Ph.D. research to the Evolutionary Complex Systems Group members	
2012	Oral Presentation	Centre for Informatics and Systems of the University of Coimbra
	Presented the latest results of the ongoing Ph.D. research to the Evolutionary Complex Systems Group members	
2011	Oral Presentation	Centre for Informatics and Systems of the University of Coimbra
	Presented the research I conducted for my Masters degree to the Evolutionary Complex Systems Group members	
2010	Poster	2ª Escola Luso-Brasileira de Computação Evolutiva (ELBCE), Guimarães
	As part of the a summer school, I created a poster entitled <i>Optimização da geometria de agregados atômicos usando algoritmos de inteligência de enxame</i>	
2010	Oral Presentation	Centre for Informatics and Systems of the University of Coimbra
	Presented the research I was conducting in the research project PTDC/QUI/69422/2006 to the Evolutionary Complex Systems Group members	
2010	Oral Presentation	Department of Chemistry, University of Coimbra
	Presented the research I was conducting in the research project PTDC/QUI/69422/2006 to the remaining members of the project	

Publications

articles in peer-reviewed journal

PSO-CGO: A Particle Swarm Algorithm for Cluster Geometry Optimization

Nuno Lourenço, Francisco B. Pereira

International Journal of Natural Computing Research 2.1 (2011) pp. 1–20. 2011

international peer-reviewed conferences/proceedings

The importance of the learning conditions in hyper-heuristics

Nuno Lourenço, Francisco B. Pereira, Ernesto Costa

Proceeding of the fifteenth annual conference on Genetic and evolutionary computation conference, 2013, Amsterdam, The Netherlands

DACCO: a discrete ant colony algorithm to cluster geometry optimization

Nuno Lourenço, Francisco B. Pereira

Proceedings of the fourteenth international conference on Genetic and evolutionary computation conference, 2012, Philadelphia, Pennsylvania, USA

Evolving evolutionary algorithms

Nuno Lourenço, Francisco B. Pereira, Ernesto Costa

Proceedings of the fourteenth international conference on Genetic and evolutionary computation conference companion, 2012, Philadelphia, Pennsylvania, USA

other publications

Swarm Intelligence Algorithms for Cluster Geometry Optimization

Nuno Lourenço

2011
